

FDM 3D Printed Parts IGS File Format 0.2mm Printing Layer

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Post-Processing: Sandblasting
- Lead Time: 7-10 Days
- Surface Finish: Smooth
- MOQ: 1 Piece
- Design Software: SolidWorks
- Size: Customized
- Material: PLA
- Application: Industrial
- Highlight: 0.2mm 3D Printed Parts, IGS 3D Printed Parts

Product Description

Product Description:

3D Printed Parts are three-dimensional components produced by 3D printing technology. We offer 3D printing with PLA material and a layer of 0.2mm, and it is possible to customize the size and shape of the parts according to your needs. We also provide post-processing services such as sandblasting to ensure the best final product. With no minimum order quantity of just one piece, our 3D printed parts are the perfect solution for low-volume production runs or prototyping.

Features:

3D Printed Components: 3D Printed Parts

Post-Processing: Sandblasting

Surface Finish: Smooth

Design Software: SolidWorks

Color: White

MOQ: 1 Piece

Technical Parameters:

Parameter	Value
Application	Industrial
Design Software	SolidWorks
Printing Layer	0.2mm
Printing Technology	FDM
Lead Time	7-10 Days
Material	PLA
Post-Processing	Sandblasting
Color	White
Surface Finish	Smooth
Size	Customized

Applications:

If you're looking for a reliable solution for your 3D printing needs, then ywy 3D Printed Parts is the right choice for you. Our products are designed with precision and quality in mind, utilizing the latest 3D printing technology to produce high-performance three-dimensional parts and products. Our 3D printed components are made from high-grade PLA material and are capable of achieving a tolerance of $\pm 0.2\text{mm}$. We are able to customize the size of our parts according to your precise requirements. We also offer sandblasting services for post-processing, making sure that our 3D Printed Parts are finished to absolute perfection. Our products are produced in Guangdong, Huizhou and our minimum order quantity is 1 Piece. With ywy 3D Printed Parts, you can be sure of quality and reliability, all at a competitive price.

Customization:

3D Printed Parts Customization Service

Brand Name:

ywy

Model Number:

ywy222

Place of Origin:

Guangdong, Huizhou

Color:

White

Lead Time:

7-10 Days

Printing Technology:

FDM

Tolerance:

±0.2mm

File Formats:

STL, IGS, STP

Keywords:

3D Printing Products, 3D Printed Parts, 3D Printed Components, Custom 3D Printing

Support and Services:

Technical Support and Services for 3D Printed Parts

We offer comprehensive technical support and services for 3D Printed Parts to ensure the best possible experience with 3D printing. Our experienced staff is available to answer your questions and provide guidance to ensure the highest quality 3D printed parts.

Design Assistance

We provide design assistance to ensure that your 3D parts are optimized for 3D printing. Our experts can provide advice on how to maximize the strength, accuracy, and cost-efficiency of your 3D printed parts.

File Conversion

We provide file conversion services to ensure your CAD files are compatible with our 3D printing services. We can also convert files from other 3D printing formats into the format required for your 3D printing project.

Printing Services

We provide 3D printing services to turn your 3D model into a physical object. Our experienced staff can assist you in selecting the best 3D printing technology and materials for your project.

Post-Printing Services

We offer post-printing services to ensure that your 3D printed parts are of the highest quality. Our post-printing services include sanding, drilling, polishing, and painting.
