

Processing Die Cast Aluminum Components Polishing Anodizing

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

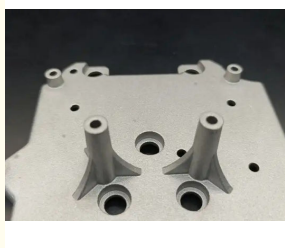

Product Specification

- Tolerance: $\pm 0.01\text{mm}$
- Mold Life: 50,000-1,000,000 Shots
- Surface Finish: Polishing, Anodizing, Plating, Painting, Etc.
- Application: Automotive, Electronics, Industrial, Etc.
- Payment: T/T, L/C, PayPal, Etc.
- Size: Customized
- Weight: 0.1-50kg
- Lead Time: 7-15 Days
- Highlight: **Processing Die Cast Aluminum Components, Polishing Die Cast Aluminum Components**

Product Description

Product Description:

Die Casting Components are produced through a process of injecting molten metal alloy into a mold cavity under high pressure. The components are available in a variety of alloys, such as Lost Wax Castings, Sand Castings, Magnesium Alloy Castings, Aluminum Alloy Castings, to meet the exact specifications of each customer. The mold life of these components is between 50,000-1,000,000 shots. Design services are available for both 3D and 2D drawings. Shipping methods include Sea/Air/Express and the size of the components can be customized to meet customer's needs. Payment options include T/T, L/C, PayPal, and more.

Features:

Product Name: Die Casting Components

Size: Customized

Payment: T/T, L/C, PayPal, Etc.

Processing: Die Casting, CNC Machining, Etc.

Material: Aluminum, Zinc Alloy Castings, Die Casting Molds, Zinc Alloy Castings, Magnesium, Copper, Etc.

Mold Life: 50,000-1,000,000 Shots

Technical Parameters:

Property	Value
Package	Wooden Case/Pallet
Processing	Die Casting, CNC Machining, Etc.
Pressure	0-500T
Shipping	By Sea/Air/Express
Mold Life	50,000-1,000,000 Shots
Size	Customized
Application	Automotive, Electronics, Industrial, Etc.
Lead Time	7-15 Days
Weight	0.1-50kg
Tolerance	±0.01mm
Lost Wax Castings	Yes
Sand Castings	Yes
Permanent Mold Castings	Yes

Applications:

YWY brand high-pressure die castings components are widely used in many different industries, such as automotive, aerospace, electronics, medical, etc. Our die castings components are crafted from high grade aluminum alloy materials, lost wax castings, investment castings and steel castings. With advanced CNC machining and precise processing, superior surface finish such as polishing, anodizing, plating and painting can be achieved. We accept 3D/2D drawing or sample for manufacturing. Our skilled engineers are able to provide Professional Solutions for your custom die casting needs. Our lead time usually takes 7-15 days and the shipping can be by sea, air or express.

Customization:

We provide custom Die Casting Components with the brand name ywy and model number ywy444. Our Die Casting Components are made of high-quality aluminum alloy and are available in a variety of sizes and finishes, such as polishing, anodizing, plating, painting, and more. These components are widely used in the automotive, electronics, and industrial sectors. We also offer a range of heat treatments and machining services to ensure quality and accuracy. We also provide low-pressure castings, aluminum alloy castings, heat treatments, machining, and quality certificates.

Our Die Casting Components are made in Guangdong, Huizhou and payment can be made through T/T, L/C, PayPal, and other methods. Our lead time is 7 to 15 days and we can also provide customized services to meet your specific requirements.

Support and Services:

Technical Support and Services for Die Casting Components

We offer complete technical support and services for our die casting components. Our goal is to provide the highest quality and most reliable products to our customers.

Our technical support team is highly trained and knowledgeable in all aspects of die casting components. We have a dedicated team of engineers and technicians who are available to help you with any technical issues you may have. Our team is also available to answer any questions you may have about our products.

We also offer a variety of services to ensure that our products meet your needs. We can help you with design, engineering, prototyping, testing, and production. We also provide ongoing support throughout the life of your product.

We strive to provide the highest level of customer service and satisfaction. If you have any questions or concerns about our products or services, please don't hesitate to contact us.
