

Polishing Industrial High Precision CNC Brass Parts

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Material: Brass
- Payment_term: T/T, PayPal, Western Union
- Package: Standard Export Package
- Port: Shenzhen
- Application: Electronic Components
- Processing_method: CNC Machining
- Delivery_time: 7-15 Days
- Surface_treatment: Polishing
- Highlight: **Industrial CNC Brass Parts,
High Precision CNC Brass Parts**

Product Description

Product Description:

We offer high-quality CNC Brass Parts with reliable delivery time, supply ability and payment terms. Our CNC Brass Parts are processed through the advanced CNC machining technology. The machining process is computer-aided, which ensures the accuracy and quality of the product. Our CNC Brass Parts are available in various sizes and shapes to meet your diverse needs. The port of our delivery is Shenzhen. We accept payment through T/T, PayPal, and Western Union. Our supply ability is up to 10000 Pieces per Month, and the delivery time is 7-15 days. With our professional team, we guarantee you the best experience in purchasing CNC-machined brass parts, computer-aided brass parts, and computer-assisted brass parts.

Applications:

CNC Brass Parts

Brand Name: ywy

Model Number: cnc404

Place of Origin: guangdonghuizhou

Payment Term: T/T, PayPal, Western Union

Dimension: Customized

Application: Electronic Components

Delivery Time: 7-15 Days

Surface Treatment: Polishing

CNC Brass Parts are computer-aided or computer-assisted, machined brass parts that are precise and of high quality. CNC machining is a process of controlling the cutting of brass material using a computer numerical control (CNC) device. This process is well-suited for producing intricate and complex shapes that require high precision with a minimum of manual labor. CNC-machined Brass Parts are often used in electronic components due to their strength, durability, and corrosion-resistant properties. The surface treatment options available for CNC Brass Parts include polishing, electroplating, and other finishing methods. With their superior materials and precise machining, CNC Brass Parts are sure to meet the demands of any application.

Customization:

Are you looking for high-quality **computer-operated brass parts** for your business? YWY offers customized **CNC machined brass parts** that are perfect for electronic components with various dimensions. Our **CNC machined brass parts** are manufactured with the highest standards and can be customized according to your requirements. We have a production capacity of up to 10,000 pieces per month.

Product Details:

Brand Name: YWY

Model Number: CNC404

Place of Origin: Guangdong, China

Processing Method: CNC Machining

Dimension: Customized

Package: Standard Export Package

Application: Electronic Components

Supply Ability: 10,000 Pieces/Month

Support and Services:

CNC Brass Parts Technical Support and Service

Our company provides comprehensive technical support and service for CNC Brass Parts. Our service team is comprised of experienced technicians who are highly knowledgeable in CNC machining. We can provide assistance in the design, fabrication, installation, and maintenance of CNC Brass Parts.

We offer technical support over the phone, via email, or in person. We can provide troubleshooting assistance and advice on the best methods for using CNC Brass Parts. We also offer training and seminars to help users learn how to use CNC Brass Parts more efficiently.

If any parts are defective or need repair, we can provide parts replacement and repair services. We can also provide on-site repair and installation services if required. Our service team is available 24/7 to provide assistance and ensure that all CNC Brass Parts are functioning properly.

We are committed to providing our customers with the best technical support and service for their CNC Brass Parts. Our team is dedicated to providing prompt and professional assistance to ensure the optimal performance of CNC Brass Parts.

Packing and Shipping:

Packaging and Shipping CNC Brass Parts:

To ensure the safe arrival of the CNC Brass Parts, we use high-quality packaging materials to package them. All items are securely bubble-wrapped and then placed into a corrugated box. The box is then sealed with tape and labeled with the order information. The box is then shipped to the requested destination using a reliable shipping company.

FAQ:

- Q1: What is CNC Brass Parts?
A1: CNC Brass Parts is a machined brass product supplied by ywy with model number cnc404, which is made in Guangdong, Huizhou.
Q2: What is the material of CNC Brass Parts?
A2: CNC Brass Parts is made of brass.
Q3: What is the size of CNC Brass Parts?
A3: The size of CNC Brass Parts depends on the customer's needs.
Q4: What is the surface treatment of CNC Brass Parts?
A4: CNC Brass Parts can be treated with sandblasting, polishing, plating, etc.
Q5: What is the lead time of CNC Brass Parts?
A5: The lead time of CNC Brass Parts depends on the quantity and complexity of the product.
