

Custom CNC Milling Machining Parts OEM/ODM Customized Fast Lead Time 7-15 Days

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc202
- Minimum Order Quantity: 1
- Price: 0.68-6.68
- Packaging Details: Bubble paper box packaging
- Delivery Time: 10-15
- Supply Ability: long-term

Product Specification

- Application: Automotive, Aerospace, Etc.
- Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.
- Advantage: High Precision, Fast Delivery, Etc.
- Processing Method: CNC Turning Milling
- Lead Time: 7-15 Days
- Package: Carton, Wooden Case, Etc.
- Tolerance: ± 0.01 mm
- OEM/ODM: Accept
- Highlight: **CNC Milling Machining Parts OEM,
Customized Milling Machining Parts,
CNC Milling Machining Parts ODM**

Product Description:

CNC Turning Milling Parts Product Overview

Our CNC Turning Milling Parts are high-quality fabricated parts that are designed and manufactured to meet the specific needs of various industries such as automotive, aerospace, and more. With a lead time of 7-15 days, we ensure fast and efficient delivery to our customers, meeting their tight production schedules and deadlines.

Our CNC Turning Fabricated Parts are produced using advanced CNC turning process, which allows for precise and accurate shaping of the materials. Our state-of-the-art CNC milling process further enhances the quality and precision of our parts, ensuring consistent and reliable performance.

The high precision of our CNC Turning Milling Parts is one of our biggest advantages. We maintain a tolerance of $\pm 0.01\text{mm}$, ensuring that our parts meet the exact specifications and requirements of our clients. This precision also allows for seamless integration with other components, resulting in smooth and efficient operation of the final product.

In addition to precision, our CNC Turning Milling Parts also offer fast delivery. With our efficient production process and streamlined supply chain, we are able to deliver our products in a timely manner, ensuring that our clients can meet their own production deadlines and maintain a competitive edge in the market.

To further enhance the quality and durability of our parts, we offer various surface treatments such as polishing, anodizing, and zinc plating. These treatments not only improve the appearance of the parts but also provide protection against corrosion and wear, extending the lifespan of the final product.

In conclusion, our CNC Turning Milling Parts are the perfect solution for industries that require high precision and fast delivery. With our advanced processes, strict quality control, and efficient supply chain, we are able to provide our clients with top-quality parts that meet their specific needs and exceed their expectations.

Features:

- Product Features:**
- Product Name: CNC Turning Milling Parts
 - Drawing Format: PDF, IGS, STP, DWG, Etc.
 - Package: Carton, Wooden Case, Etc.
 - Advantage: High Precision, Fast Delivery, Etc.
 - Tolerance: $\pm 0.01\text{mm}$
 - Processing Method: CNC Turning Milling
 - Highly precise CNC turning and milling for precise and complex parts
 - Compatible with various drawing formats for easy customization
 - Securely packaged to ensure safe delivery
 - Fast production and delivery for efficient manufacturing processes
 - Tolerance of $\pm 0.01\text{mm}$ ensures high precision and accuracy
 - Expertise in CNC turning and milling manufacturing for top-quality parts

Technical Parameters:

CNC Turning Milling Parts Technical Parameters	
Parameter	Value
Processing Method	CNC Turning Milling
OEM/ODM	Accept
Application	Automotive, Aerospace, Etc.
Package	Carton, Wooden Case, Etc.
Product Size	Customized
Lead Time	7-15 Days
MOQ	1 Piece
Material	Stainless Steel, Aluminum, Brass, Etc.
Tolerance	$\pm 0.01\text{mm}$
Surface Treatment	Polishing, Anodizing, Zinc Plating, Etc.

Key Words: CNC Milling Manufacturing Parts, CNC Turning Process Parts, CNC Milling Manufactured Parts

Applications:

Product Introduction

Brand Name: YWY
Model Number: CNC202
Place of Origin: Guangdong Huizhou
Minimum Order Quantity: 1
Price: \$0.68-\$6.68
Packaging Details: Bubble Paper Box Packaging
Delivery Time: 10-15 Days
Supply Ability: Long-term
Tolerance: $\pm 0.01\text{mm}$
MOQ: 1 Piece
Lead Time: 7-15 Days
Drawing Format: PDF, IGS, STP, DWG, Etc.
Product Size: Customized

Product Description

The CNC Turning Milling Parts, also known as CNC Milling Fabricated Parts, are manufactured by YWY using advanced technology and high-quality materials. These parts are highly versatile and can be customized according to the client's requirements.

The CNC Turning Milling Parts are designed to have high precision, ensuring that all dimensions are accurate to within $\pm 0.01\text{mm}$. This makes them suitable for use in a wide range of applications, including industrial, automotive, aerospace, electronic, medical, and energy industries.

These parts are known for their durability and high quality, making them a reliable choice for various industrial use. They are also cost-effective, providing a long-term solution for companies looking to streamline their production process.

Product Features

Efficient: The CNC Turning Milling Parts are designed to be highly efficient, providing fast and accurate production results.

Customized Parts: These parts can be customized according to the client's specific requirements, making them suitable for a wide range of applications.

High Precision: The parts are manufactured with high precision, ensuring that all dimensions are accurate to within $\pm 0.01\text{mm}$.

Durable: The CNC Turning Milling Parts are made with high-quality materials, making them durable and long-lasting.

High Quality: YWY ensures that all parts undergo strict quality control measures to maintain high quality standards.

Versatile: These parts can be used in a wide range of industries, including automotive, aerospace, electronic, medical, and energy industries.

Advanced Technology: YWY uses advanced CNC technology to manufacture these parts, ensuring high precision and efficiency.

Wide Range of Applications: The CNC Turning Milling Parts can be used in various applications, including industrial, automotive, aerospace, electronic, medical, and energy industries.

Cost-Effective: These parts provide a cost-effective solution for companies looking to streamline their production process.

Fast Delivery: YWY has a quick lead time of 7-15 days, ensuring fast delivery of the CNC Turning Milling Parts.

Professional Service: YWY has a team of experienced engineers who provide professional services to ensure customer satisfaction.

Custom Design: The parts can be customized with the help of YWY's experienced engineers to meet the client's specific requirements.

Quality Control: YWY has strict quality control measures in place to ensure that all parts meet high-quality standards.

Competitive Price: YWY offers competitive prices for the CNC Turning Milling Parts, making them a cost-effective option for companies.

Application and Use

The CNC Turning Milling Parts are widely used in various industries, including:

Industrial Use: These parts are used in various industrial applications, such as machinery, equipment, and tools.

Automotive Industry: The CNC Turning Milling Parts are used in the production of automotive components, such as engine parts, chassis, and suspension systems.

Aerospace Industry: These parts are used in the aerospace industry to manufacture components for aircraft, spacecraft, and satellites.

Electronic Industry: The CNC Turning Milling Parts are used in the production of electronic components, such as circuit boards, connectors, and housings.

Medical Industry: These parts are used in the medical industry to manufacture components for medical devices and equipment.

Energy Industry: The CNC Turning Milling Parts are used in the energy industry to manufacture components for renewable energy systems, such as wind turbines and solar panels.

Household Appliances: These parts are used in the production of household appliances, such as refrigerators, washing machines, and air conditioners.

Conclusion

In conclusion, YWY's CNC Turning Milling Parts, also known as CNC Milling Fabricated Parts, are a versatile, efficient, and cost-effective solution for various industrial use. With advanced technology, high precision, and strict quality control, these parts are a reliable choice for companies looking to streamline their production process. With a wide range of applications and professional services, YWY's CNC Turning Milling Parts are the perfect choice for companies looking for high-quality, customized parts at a competitive price.

Customization:

Customized CNC Turning Milling Parts by YWY

Brand Name: YWY
Model Number: CNC202

Place of Origin: Guangdong Huizhou
Minimum Order Quantity: 1
Price Range: \$0.68-\$6.68
Packaging Details: Bubble Paper Box Packaging
Delivery Time: 10-15 days
Supply Ability: Long-term
Drawing Format: PDF, IGS, STP, DWG, Etc.
Tolerance: $\pm 0.01\text{mm}$
Advantage: High Precision, Fast Delivery
Processing Method: CNC Turning Milling
Material Options: Stainless Steel, Aluminum, Brass, Etc.
Product Description:

Our CNC Turning Milling Parts, also known as CNC Turning Fabricated Parts or CNC Milling Machining Parts, are manufactured with high precision and fast delivery by YWY. We offer customized services to meet your specific requirements. Our products are made from various materials such as stainless steel, aluminum, and brass.

Key Features:

Customized Services

High Precision

Fast Delivery

Bubble Paper Box Packaging

Long-term Supply

Various Materials Available

PDF/IGS/STP/DWG Drawing Formats

$\pm 0.01\text{mm}$ Tolerance

Choose YWY for your CNC Turning Milling Parts needs and experience our top-notch products and services.

Packing and Shipping:

Packaging and Shipping of CNC Turning Milling Parts

Our CNC Turning Milling Parts are carefully packaged to ensure safe delivery to our customers. We understand the importance of protecting your parts during shipping, and we take great care in preparing them for transport.

Packaging

All of our CNC Turning Milling Parts are packaged in durable, high-quality materials to prevent any damage during transit. Each part is individually wrapped and secured in a protective layer to prevent scratches or other surface damage. For larger orders, we use sturdy cardboard boxes with additional cushioning materials to provide extra protection.

We also offer customized packaging options for special requests or unique part shapes. Our team will work with you to find the best packaging solution for your specific needs.

Shipping

We offer various shipping options to accommodate our customers' needs and budget. Our standard shipping methods include air freight, ocean freight, and ground transportation. We have partnerships with reputable shipping companies to ensure timely and secure delivery of your parts.

For urgent orders, we also offer expedited shipping services at an additional cost. Our team will work with you to find the best shipping method and provide you with a detailed estimate of the shipping cost and delivery time.

Tracking

Once your order has been shipped, you will receive a tracking number that you can use to monitor the status of your package. We also provide regular updates on the shipping progress to keep you informed about your order's whereabouts.

If you have any questions or concerns about the packaging or shipping of your CNC Turning Milling Parts, please don't hesitate to contact us. Our customer service team is always available to assist you and ensure a smooth and hassle-free delivery experience.

FAQ:

Q: What is the brand of this product?

A: The brand name of this product is ywy.

Q: What is the model number of this product?

A: The model number of this product is cnc202.

Q: Where is this product produced?

A: This product is produced in guangdonghuizhou.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: What is the price range for this product?

A: The price range for this product is 0.68-6.68.

Q: How is this product packaged?

A: This product is packaged in bubble paper box packaging.

Q: How long does it take for delivery?

A: The delivery time for this product is 10-15 days.

Q: Is this product always available for purchase?

A: Yes, this product has a long-term supply ability.
