

## Custom Precision CNC Milling Parts Powder Coated With Zinc Finish OEM Service

Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc101

### Product Specification

- Surface Finish: Polishing, Anodizing, Plating, Etc.
- Coating: Powder Coating, Zinc Plating, Etc.
- Service: OEM/ODM
- Equipment: CNC Milling Machine
- Packaging: Carton, Wooden Case, Etc.
- Processing Method: CNC Milling
- Size: Customized
- Tolerance:  $\pm 0.01\text{mm}$
- Highlight: **Powder Coated CNC Milling Parts,  
OEM Service CNC Milling Parts,  
Zinc Finish CNC Milling Parts**

### Product Description:

Our Precision Milling Parts are designed to meet the needs of a range of industries, including Industrial, Automotive, and many more. We offer both OEM and ODM services, ensuring that we can meet the needs of our customers regardless of their unique requirements. With our CNC Milling technology, we are able to produce parts to the highest levels of precision and accuracy. This makes our products ideal for use in a range of applications where precise measurements are essential. We offer a range of coatings for our Precision Milling Parts, including Powder Coating, Zinc Plating, and many more. This ensures that our products are not only functional and durable but that they also look great too. All of our products are packaged to the highest standards, ensuring that they arrive at their destination in perfect condition. We offer a range of packaging options, including Cartons, Wooden Cases, and many more. This allows our customers to choose the packaging that best suits their needs. So if you are in need of high-quality Precision Milling Parts that are manufactured using the latest CNC Milling technology, look no further than our range of CNC Milling Parts. With our commitment to quality, precision, and innovation, we are confident that we can meet the needs of even the most demanding customers.

### Features:

Product Name: CNC Milling Parts  
Processing Method: CNC Milling  
Coating: Powder Coating, Zinc Plating, Etc.  
Service: OEM/ODM  
Equipment: CNC Milling Machine  
Tolerance:  $\pm 0.01\text{mm}$   
Product Attributes:  
Computer Aided Manufacturing Parts  
Computer Programmed Machining Parts  
Computer Numerical Control Machining Parts

### Technical Parameters:

Precision:	High Precision
Packaging:	Carton, Wooden Case, Etc.
Coating:	Powder Coating, Zinc Plating, Etc.
Lead Time:	7-15 Days
Tolerance:	$\pm 0.01\text{mm}$
Material:	Aluminum, Steel, Stainless Steel, Etc.
Surface Finish:	Polishing, Anodizing, Plating, Etc.
Processing Method:	CNC Milling
Service:	OEM/ODM
Application:	Industrial, Automotive, Etc.

These technical parameters describe the Computer Aided Machining Parts, Computer Aided Manufacturing Parts, and Precision Milling Parts.

### Applications:

Our CNC Milling Parts are widely used in manufacturing industries that require Computer Aided Manufacturing Parts, such as aerospace, automotive, medical, and electronics. These parts are designed to meet the highest standards of precision and accuracy, and are ideal for applications that require complex shapes and intricate details. The CNC Milling Parts are available in a variety of coatings, such as Powder Coating, Zinc Plating, and others, which makes them resistant to wear and tear, and increases their lifespan. The parts are also available in different packaging options, including Carton, Wooden Case, and others, which ensures that they are delivered safely to the customer. The CNC Milling Parts have a Tolerance of  $\pm 0.01\text{mm}$ , which is the highest level of precision achievable in Numerically Controlled Milling Parts. This makes them suitable for applications that require tight tolerances and exact measurements. The CNC Milling Parts are versatile, and can be used in a variety of scenarios, such as prototyping, custom fabrication, and mass production. They are also ideal for applications that require high durability and resistance to wear and tear, such as in the aerospace and automotive industries.

### Customization:

## Support and Services:

Our CNC Milling Parts product comes with comprehensive technical support and services to ensure that our customers get the most out of their investment. Our team of experienced technicians is available to assist with any technical issues or questions that may arise. We offer on-site training and installation services to help our customers get up and running quickly. In addition, we provide maintenance and repair services to keep our products in top condition and minimize downtime. Our goal is to provide our customers with the best possible experience and help them achieve their business goals.

## FAQ:

**Q: What is the brand name of the CNC Milling Parts?**

A: The brand name of the CNC Milling Parts is ywy.

**Q: What is the model number of the CNC Milling Parts?**

A: The model number of the CNC Milling Parts is cnc101.

**Q: Where is the place of origin of the CNC Milling Parts?**

A: The place of origin of the CNC Milling Parts is guangdonghuizhou.

**Q: What materials are the CNC Milling Parts made of?**

A: The CNC Milling Parts are made of various materials, such as aluminum, brass, steel, and plastic.

**Q: What is the maximum size of the CNC Milling Parts that can be produced?**

A: The maximum size of the CNC Milling Parts that can be produced depends on the specific design and requirements of the customer. Please contact us for more information.
