

Custom 3D Printed Parts Smooth Surface Finish With FDM Printing Technology for Industrial

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy222

Product Specification

- Printing Layer: 0.2mm
- Tolerance: $\pm 0.2\text{mm}$
- Design Software: SolidWorks
- Surface Finish: Smooth
- Lead Time: 7-10 Days
- Size: Customized
- Post-Processing: Sandblasting
- Color: White
- Highlight: Custom 3D Printed Parts,
Smooth Surface Finish 3D Printed Parts,
FDM Printing Technology 3D Printed Parts

Product Description

Product Description:

Our 3D Printed Parts are made using the latest in FDM printing technology, ensuring the highest level of accuracy and precision. With a printing layer of just 0.2mm, our parts are incredibly detailed and accurate, making them ideal for a wide range of industrial applications. Our 3D Printed Components come in a range of file formats, including STL, IGS, and STP, so you can easily integrate them into your existing designs. And with a sleek white color, our parts are sure to complement any project. Whether you need 3D Printed Components for prototyping, manufacturing, or any other industrial application, our 3D Printed Parts are the perfect choice. So why wait? Order yours today and experience the difference that high-quality 3D printing can make!

Features:

Product Name: 3D Printed Parts

Size: Customized

MOQ: 1 Piece

Design Software: SolidWorks

Printing Technology: FDM

Application: Industrial

Our Three-Dimensional Parts are printed using Fused Deposition Modeling (FDM) technology, which allows us to create customized parts according to your specifications. Our design software, SolidWorks, ensures precise and accurate designs for industrial applications. With a minimum order quantity of 1 piece, we provide the flexibility to meet your specific needs.

Technical Parameters:

Printing Technology	FDM
Design Software	SolidWorks
Tolerance	±0.2mm
Color	White
Surface Finish	Smooth
Application	Industrial
File Format	STL, IGS, STP
Size	Customized
MOQ	1 Piece
Lead Time	7-10 Days

Our company offers Three-Dimensional Prints, Three-Dimensional Products and customizes the size of the product according to the customer's requirements.

Applications:

Our 3D Printed Parts are perfect for creating three-dimensional products, with the ability to print complex designs that would not be possible with traditional manufacturing methods. Our 3D Printed Components can be used in various industrial applications, such as prototyping, tooling, and even end-use parts.

Our 3D Printing Products can be used in the automotive industry to create customized parts for vehicles, reducing the need for expensive molds and tooling. In the aerospace industry, our 3D Printed Parts can be used to create lightweight and strong components for aircraft and spacecraft.

Our 3D Printed Parts can also be used in the medical industry to create custom prosthetics and implants, tailored to fit each patient's unique needs. Additionally, our 3D Printed Parts can be used in the architectural industry to create models and prototypes of buildings, allowing architects to visualize their designs in a three-dimensional space.

In conclusion, ywy's 3D Printed Parts are a versatile and essential component in various industries. Our ability to create customized parts with complex designs sets us apart from traditional manufacturing methods, making our 3D Printed Parts a valuable asset to any industrial setting.

Customization:

Our 3D Printed Goods are customizable to your needs. With our Three-Dimensional Parts, we offer Product Customization Services to ensure that your 3D Printing Products are tailored to your specific requirements.

Brand Name: ywy

Model Number: ywy222

Place of Origin: guangdonghuizhou

Application: Industrial

Surface Finish: Smooth

Design Software: SolidWorks

Color: White
MOQ: 1 Piece

Support and Services:

Our 3D Printed Parts product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experts is available to assist with any issues related to product installation, configuration, and troubleshooting. Additionally, we offer ongoing maintenance and repair services to keep your 3D printed parts operating at peak efficiency. Our commitment to quality and customer service means that you can rely on us for all your 3D printing needs.

Packing and Shipping:

Product Packaging:

All 3D printed parts are carefully inspected and packaged to ensure safe delivery. They are packed in sturdy boxes with ample padding to prevent any damage during transit. Each box contains a packing slip with the details of the order.

Shipping:

We offer worldwide shipping for our 3D printed parts. We use reliable shipping carriers to ensure timely delivery of your order. Shipping costs vary depending on the destination and the size of the order. You will receive a tracking number once your order has been shipped so you can track its progress.

FAQ:

Q: What is the brand name of this 3D printed parts product?

A: The brand name of this 3D printed parts product is ywy.

Q: What is the model number of this 3D printed parts product?

A: The model number of this 3D printed parts product is ywy222.

Q: Where is this 3D printed parts product made?

A: This 3D printed parts product is made in guangdonghuizhou.

Q: Can this 3D printed parts product be customized?

A: Yes, this 3D printed parts product can be customized according to your specific needs.

Q: What materials are used to make this 3D printed parts product?

A: The materials used to make this 3D printed parts product vary depending on the specific part, but typically include various types of plastics and metals.
