

## Customized CNC Machined Parts With Anodizing Plating Painting Surface Treatment

### Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

#### Product Specification

- Delivery Method: DHL, FedEx, UPS, Etc.
- Quality Control: 100% Inspection Before Shipment
- Lead Time: 7-15 Days
- Processing Method: CNC Machining, Turning, Milling, Etc.
- Material: Aluminum, Steel, Brass, Etc.
- Size: Customized
- Packaging: Standard Export Carton Or Customized
- Application: Automotive, Aerospace, Medical, Etc.
- Highlight: **Customized CNC Machined Parts,  
Anodizing Plating CNC Machined Parts,  
Painting Surface Treatment CNC Machined  
Parts**

## Product Description

### Product Description:

Our CNC Machined Parts are made using advanced technology and expertise in the industry. We use Computer Numerical Control (CNC) machines to manufacture high precision parts. Our state-of-the-art CNC machines guarantee that parts are produced within the required specifications.

We offer OEM/ODM services to our clients. Our CNC Machined Parts can be tailored and customized to meet specific requirements. We understand that every client is unique, and we strive to meet their specific needs. Our MOQ is 10 pieces, and we offer competitive pricing to our clients.

Our CNC Machined Parts are packaged in Standard Export Carton or customized packaging as per the client's request. We use reliable and efficient delivery methods such as DHL, FedEx, UPS, etc. to ensure that our clients receive their orders within the shortest time possible.

Our CNC Machined Parts are manufactured using different processing methods such as CNC Machining, Turning, Milling, etc. We use the best processing method that suits the material and design requirements of our clients. Our team of experts ensures that every part is precisely machined to meet the required specifications.

Our Computer-controlled machining parts are used in various industries such as Aerospace, Automotive, Medical, and Electronics. We take pride in our ability to produce high-quality Numerically-controlled machining parts that meet the most demanding requirements of our clients.

At our company, we put our clients' needs first. Our team of experts is dedicated to providing exceptional services to our clients. We have a reputation for delivering high-quality products and services to our clients. Contact us today to learn more about our CNC Machined Parts and how we can assist you with your project.

### Features:

Product Name: CNC Machined Parts

Application: Automotive, Aerospace, Medical, Etc.

Lead Time: 7-15 Days

Material: Aluminum, Steel, Brass, Etc.

Delivery Method: DHL, FedEx, UPS, Etc.

Size: Customized

Features:

Computer-controlled machining parts

Computer-controlled machining parts

Computer-aided manufacturing parts

### Technical Parameters:

Technical Parameter	Description
Delivery Method	DHL, FedEx, UPS, Etc.
Processing Method	CNC Machining, Turning, Milling, Etc.
Size	Customized
MOQ	10 Pieces
Tolerance	±0.01mm
Quality Control	100% Inspection Before Shipment
Drawing Format	PDF, DWG, IGS, STEP, Etc.
Surface Treatment	Anodizing, Plating, Painting, Etc.
Lead Time	7-15 Days
Material	Aluminum, Steel, Brass, Etc.

Our company specializes in manufacturing computer-aided machining parts, computer-controlled machining parts, and precision machined parts. This CNC Machined Parts product has technical parameters as listed in the table above.

### Applications:

**Automotive Industry:** Our CNC machined parts are widely used in the automotive industry for applications such as engine parts, transmission parts, braking systems, and suspension systems. Our products are made from high-quality materials such as aluminum, steel, and brass, which ensure high strength, durability, and corrosion resistance. Our parts are also subjected to rigorous quality checks to ensure that they meet the industry standards and specifications.

**Aerospace Industry:** The aerospace industry demands high-precision parts that can withstand extreme environments and conditions. Our CNC machined parts are used in various applications such as landing gear, engine components, and structural parts. Our products

are made from high-strength materials that can withstand high temperatures, pressures, and vibrations. We also provide surface treatments such as anodizing, plating, and painting, to enhance the durability and corrosion resistance of the parts.

**Medical Industry:** The medical industry requires parts that are highly precise, reliable, and biocompatible. Our CNC machined parts are used in various applications such as surgical instruments, implantable devices, and diagnostic equipment. Our products are made from materials such as titanium and stainless steel, which are biocompatible and have excellent mechanical properties. Our parts are also subjected to strict quality checks to ensure that they meet the industry standards and regulations.

**Electronic Industry:** The electronic industry requires parts that are highly precise and have excellent surface finish. Our CNC machined parts are used in various applications such as connectors, housings, and heat sinks. Our products are made from materials such as aluminum and copper, which have excellent thermal conductivity and electrical properties. We also provide surface treatments such as anodizing and plating, to enhance the appearance and corrosion resistance of the parts.

Our CNC machined parts are available in various models such as 1X893 and OEM, and are made in Guangdong, China. Our products are certified and have a minimum order quantity of 50 pieces. Our prices range from \$2.35 to \$12.68 per piece, depending on the quantity, material, and surface treatment. We provide packaging details such as EPE foam, anti-rust paper, stretch film, plastic bags, and cartons, to ensure safe and secure delivery. We also offer fast and reliable delivery methods such as DHL, FedEx, and UPS. Our processing methods include CNC machining, turning, milling, and other techniques that ensure high precision and accuracy. Our products have a tolerance of  $\pm 0.01\text{mm}$ , which ensures high quality and consistency. Contact us today to learn more about our CNC machined parts and how they can benefit your business.

## Customization:

---

## Support and Services:

---

Our CNC machined parts are designed and manufactured to meet the highest standards of quality and precision. In the unlikely event that you experience any technical issues with our product, our team of experienced technical support professionals is available to assist you with troubleshooting and problem resolution.

In addition to technical support, we also offer a range of services to ensure that your CNC machined parts operate at their best. These services include regular maintenance, repair and replacement of parts, and upgrades to improve performance and functionality.

Our commitment to customer satisfaction means that we are dedicated to providing the best possible support and services for our CNC machined parts. Contact us today to learn more about how we can help you get the most out of your investment.

## Packing and Shipping:

---

Product Packaging:

All CNC machined parts will be securely packaged in bubble wrap to prevent damage during transit.

The parts will then be placed in a sturdy cardboard box with adequate cushioning to further protect them during shipping.

Shipping:

We offer shipping via various trusted carriers such as FedEx, UPS, and DHL.

The cost of shipping will depend on the weight and destination of the package.

Once your order is processed and shipped, you will receive a tracking number to monitor the progress of your shipment.

## FAQ:

---

**Q1: What is the brand name of the CNC Machined Parts?**

A1: The brand name of the CNC Machined Parts is yuanwenyu.

**Q2: What is the minimum order quantity for the CNC Machined Parts?**

A2: The minimum order quantity for the CNC Machined Parts is 50 pieces.

**Q3: What is the price range for the CNC Machined Parts?**

A3: The price range for the CNC Machined Parts is from \$2.35 to \$12.68 per piece.

**Q4: What is the packaging detail for the CNC Machined Parts?**

A4: The packaging detail for the CNC Machined Parts includes EPE foam, Anti-Rust Paper, Stretch Film, Plastic bag +Carton.

**Q5: What is the supply ability for the CNC Machined Parts?**

A5: The supply ability for the CNC Machined Parts is 1000000 Piece/Pieces per Month.
