

Customized Size Expertly Crafted Stainless Steel CNC Turned and Milled Parts with $\pm 0.01\text{mm}$ Tolerance

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc202
- Minimum Order Quantity: 1
- Price: 0.68-6.68
- Packaging Details: Bubble paper box packaging
- Delivery Time: 10-15
- Supply Ability: long-term

Product Specification

- Product Size: Customized
- Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.
- Processing Method: CNC Turning Milling
- Lead Time: 7-15 Days
- Advantage: High Precision, Fast Delivery, Etc.
- Shipping: Express, Air, Sea
- Tolerance: $\pm 0.01\text{mm}$
- Package: Carton, Wooden Case, Etc.
- Highlight: **CNC Turned and Milled Parts,
Stainless Steel CNC Turned Milled Parts,
Customized Size CNC Turned Milled Parts**

Product Description

Product Description:

We provide an extensive selection of packaging choices for our CNC turning milling parts, catering to your preference for carton, wooden case, and additional options. You have the flexibility to select the shipping method that aligns with your requirements, whether it's express, air, or sea transport.

Our CNC turning milling parts come in a multitude of sizes, ensuring you can find the ideal fit for your specific project. We are capable of working with your preferred drawing formats, including PDF, IGS, STP, DWG, and more.

In terms of surface treatment, we present a range of solutions to accommodate your needs. We can offer finishes from polishing to anodizing to zinc plating, ensuring the desired appearance for your components.

At our company, we employ only top-tier materials and machinery in the production of our CNC turning milling parts. Our skilled team of experts is committed to meeting our stringent quality and performance standards for every part we manufacture.

For your custom CNC turning parts requirements, consider our CNC turning milling parts as your go-to solution. We are dedicated to delivering the highest level of service and quality to our customers and back our products with a satisfaction guarantee.

Features:

Product Name: CNC Turning Milling Parts

Application: Automotive, Aerospace, Etc.

Processing Method: CNC Turning Milling

Product Size: Customized

Drawing Format: PDF, IGS, STP, DWG, Etc.

Material: Stainless Steel, Aluminum, Brass, Etc.

Our Custom CNC Turning Parts are made using high-quality CNC Machining Turning Parts techniques and are suitable for use in various applications such as automotive and aerospace industries. The product size is completely customizable and we accept drawing formats like PDF, IGS, STP, DWG, etc. Materials used include Stainless Steel, Aluminum, Brass, and more.

Technical Parameters:

Lead Time	7-15 Days
Product Size	Customized
Drawing Format	PDF, IGS, STP, DWG, Etc.
Surface Treatment	Polishing, Anodizing, Zinc Plating, Etc.
Material	Stainless Steel, Aluminum, Brass, Etc.
Tolerance	±0.01mm
Package	Carton, Wooden Case, Etc.
MOQ	1 Piece
Processing Method	CNC Turning Milling
OEM/ODM	Accept

Applications:

The CNC Turning Milling Parts are customized to fit the specific needs of the customer. The product size is customized with a tolerance of $\pm 0.01\text{mm}$. Ywy accepts OEM/ODM orders for the product. The surface treatment options include polishing, anodizing, zinc plating, and more.

The CNC Turning Milling Parts are suitable for various applications, including but not limited to:

Automotive: Ywy's CNC Turning Milling Parts can be used in the automotive industry for engine components, brake systems, suspension

systems, and more.

Electronics: The product can be used in the electronics industry for components such as connectors, switches, and sensors.

Aerospace: Ywy's CNC Turning Milling Parts can be used in the aerospace industry for components such as landing gear, control systems, and more.

Medical: The product can be used in the medical industry for components such as surgical instruments, implants, and more.

The CNC Turning Milling Parts can be used in various scenarios, including but not limited to:

Prototyping: The product can be used for prototyping new products in various industries.

Mass Production: The CNC Turning Milling Parts can be used for mass production of customized components.

Repair and Maintenance: The product can be used for repairing and maintaining various equipment and machinery.

In summary, Ywy's CNC Turning Milling Parts, model number CNC202, are versatile components used in various industries for customized applications. With a long-term supply ability and a range of surface treatment options, the product can be used in prototyping, mass production, and repair and maintenance scenarios.

Customization:

The dimensions of our product are tailored to fulfill your unique requirements, and our CNC Metal Machining Parts can be equipped with various surface treatments like polishing, anodizing, zinc plating, and additional options. We provide a range of shipping methods, including express, air, and sea, to guarantee prompt and hassle-free delivery.

Our Custom CNC Turning Parts boast exceptional accuracy, making them perfect for applications in both the automotive and aerospace sectors. With our swift delivery times and outstanding customer service, we are dedicated to offering you a product of the highest caliber. Select ywy for all your CNC Turning Milling Parts requirements and reap the benefits of our offerings, such as rapid delivery, precision, and more. Reach out to us today to discover further details about our customization services and to place your order.

Support and Services:

Our CNC Turning Milling Parts are crafted to deliver top-tier precision and quality, perfectly suited for your manufacturing requirements. We provide comprehensive technical support and services to maximize your product's performance. Our knowledgeable team is on hand to address any inquiries or issues related to the setup, usage, or upkeep of your CNC Turning Milling Parts. The support we offer includes:

- Guidance on installation and problem-solving
- Support for operational procedures
- Advice on maintenance and repair
- Options for customization

Beyond technical support, we extend a suite of services designed to enhance your CNC Turning Milling Parts' efficiency:

- Bespoke design and engineering services
- Selection and optimization of materials
- Development of prototypes
- Execution of production runs

At [Huizhou Yuanwenyu Precision Parts Co., Ltd.], we are dedicated to offering our clients unparalleled support and service. Reach out to us today to find out more about how we can assist with your needs for CNC Turning Milling Parts.

Packing and Shipping:

Product Packaging:

All parts will be securely packed in bubble wrap

The bubble wrapped parts will be placed in a cardboard box

The cardboard box will be sealed with packing tape

Shipping:

All orders will be shipped via UPS or FedEx

Shipping charges will be calculated based on the weight and destination of the package

Customers will receive a tracking number once the package has been shipped

FAQ:

Q1: What is the brand name of this product?

A1: The brand name of this product is **ywy**.

Q2: What is the model number of this product?

A2: The model number of this product is **cnc202**.

Q3: What is the place of origin for this product?

A3: The place of origin for this product is **Guangdong Huizhou**.

Q4: What is the minimum order quantity for this product?

A4: The minimum order quantity for this product is **1**.

Q5: What is the price range for this product?

A5: The price range for this product is **\$0.68 - \$6.68**.

Q6: How is this product packaged for delivery?

A6: This product is packaged with **bubble paper box packaging**.

Q7: How long does it take for delivery?

A7: Delivery time for this product is **10-15** days.

Q8: What is the supply ability for this product?

A8: The supply ability for this product is **Long-term**.
